

Michael Sperlinga

Candidate for Board of Directors Rancho Santa Fe Association

ABOUT ME

Born and raised in the Boston area, Michael earned his B.S. degree in Finance at Bentley University. Upon graduation, he began his career at Coopers and Lybrand before joining Merrill Lynch as a Financial Advisor in 1994. Over the next 17 years, he built a successful practice helping families achieve their personal and professional goals. He joined Morgan Stanley in 2011 and moved to California six years later, where he remains a valuable member of the firm.

A seasoned professional for more than 28 years, Michael draws upon his vast experience to provide clients with customized portfolios and tailored advice. His disciplined process begins with asking the right questions and actively listening. He takes pride in his ability to put complex investment strategies into action and effectively communicating these strategies using simple and easy-to-understand language.

Outside of the office, Michael enjoys traveling, golf and spending time with his family. His wife grew up in Rancho Santa Fe, and together they are raising three young children there. He is an avid baseball fan and loves every opportunity to cheer on his Boston Red Sox.

WHY I AM RUNNING FOR THE BOARD

I am running for the board because I will offer a unique perspective from the standpoint that my in-laws have lived in the community for 30 years and represent people that have lived here for a long time, as well as a viewpoint from a family that has moved into Rancho Santa Fe more recently. My wife and I moved our entire family across the country from Boston to live in this community. We are committed to making it as wonderful as possible. I love and care deeply about the Rancho Santa Fe community, and my wife and I are raising our children here.

I feel it's very important for the Board of Directors to have representation from families with young children. Our family intends to live here in Rancho Santa Fe for many years to come, and I would like to have a positive impact on how the community evolves, especially in these challenging times.
